About Me

I am a highly motivated cybersecurity student, eager to learn and grow in the field. I develop my skills through CTF challenges, reading security articles, and hands-on practice. By sharing what I learn, I reinforce my knowledge while contributing to the community. I stay updated with new technologies and aim to continuously improve my abilities and understanding of cybersecurity.

Work Experience

Internship Program — Ministry of Science and Education of Azerbaijan 2024

- Completed a 4-month structured internship program.
- Assisted in team projects, reporting, and presentations.
- Gained initial exposure to professional work environments.
- Developed communication, organizational, and teamwork skills.

Certifications

- Cisco: Introduction to Cybersecurity
- Cisco: Ethical Hacking Essentials

Interests / Activities

- Participating in CTF challenges and cybersecurity competitions to improve problem-solving and practical security skills.
- Writing blog posts about cybersecurity topics, sharing knowledge, and documenting learning experiences.
- Exploring and learning new cybersecurity tools, frameworks, and technologies to stay updated with industry trends.
- Following cybersecurity news, research papers, and ethical hacking developments to expand knowledge and awareness.
